DOMENIS1898’s Geometrie Cividât

scritto da Giovanna Romeo | 6 Agosto 2022

Excellent to drink in purity, excellent in mixed drinks with exclusive tonic waters, Cividât Geometrie gin, made by the legendary DOMENIS1898 distillery, is the expression of 19 botanical herbs, almost all from the surroundings of Cividale. A geometrically perfect sphere bottle hides precious ingredients: local botanical herbs – both in the form of

tincture and essential oil – determine taste, color and aroma. Different citrus fruits are blended with pure wheat alcohol and a juniper alcoholate obtained from the distillation of its macerated berries.
Refreshing, one of a kind, floral and spicy, delicate and elegant in the long-lasting aftertaste, Cividât Geometrie gin combines knowledge and territorial identity with an excellent quality standard that starts from the products of nature and creates this pleasant alchemy. This gin's intense flavor and aroma convey the typical sensations of a top quality product.
The fourth generation of the Domenis family, with the management of Cristina Domenis, marks a further growth in quality and experimentation.

Company Profile

Founded in 1898 by Pietro Domenis in Cividale del Friuli, DOMENIS1898 has developed over one hundred and twenty years of wisdom and craftsmanship transmitted in the unquestionable quality of its products: modern spirits in taste and style, which keep intact all the values that have always distinguished this historic brand. Tradition and innovation blend together to satisfy the most demanding palates creating the excellence of Italian grappas: products such as Storica®, Secolo, DOMENIS® Gold Edition, Special Edition Picolit and Futura. For the 120th anniversary of the company's birth, LA120 was launched and immediately awarded as well as I III Re, valuable aged barrique grappas crowned indisputable "Sovereigns" of DOMENIS1898 production. Alongside the best grappas, there are also some gins, including Cividât, the 42° gin that best expresses the particularities of the Cividale del Friuli territory, and liqueurs such as Storica Amaro, Storica Verde and Storica Sambuca, all recognized excellences. TRITTICO, the line made up of premium products dedicated to mixology, is also born from the over a hundred years of experience of DOMENIS1898. The balance of the elements for the perfection of taste made it possible to obtain Bergamot, an

intense and fruity liqueur with a fresh and pleasant aroma, and Queen Mary, the bitter obtained from the extract of selected Cannabis sativa seeds, but also DOMAZ, the alcohol-free bitter, and the latest arrivals, Vermouth Ros, Blanc, and Rosé, already loved by bartenders. Quality and awareness of the respect for environment are revealed by BIO references and by VEGAN, the line of vegan and organic products certified by Vegan Society and CCPB. Finally, Storica®, also available in Barrique Millesimata version, is celebrated by the talent of Romina Dorigo in a set of six bottles, signed and numbered, in a limited edition, to be collected: the exclusive Enoteca Collection is on sale in the best wine shops and on the **Company eShop**.
