

DOMENIS1898's Ginrose

scritto da Redazione Spirits Meridian | 12 Luglio 2023

If we were to sum up DOMENIS1898 products in a single word, we would undoubtedly choose terms like reliability, research, and affection for its historic brand.

The refinement and balance of this gin, however, surprise the palate, as does the eye-catching, aesthetically pleasing hue that is “attractive” at first look.

Gin's origins can be traced back to rural and even romantic paths; we don't know its country of origin, nor, more importantly, why it was created in the first place or for what purposes it was initially intended, but we do appreciate what the past has given us in the form of a product with a genuine charm.

We are unquestionably witnessing a genuine revival of this distillate in the current period, where research and the

contribution of so-called “noble botanicals” make a difference in value rather than merely flavor.

DOMENIS1898 Ginrose is actually an olfactory poem; while the majority of the spices are recognizable, the quality is provided in this instance by a citrus note with exceptional depth, elegance, and unexpected freshness.

With its enveloping elegance and unmistakable spicy finish, the DOMENIS1898 Ginrose, a proud exponent of global mixology, confirms the company’s dedication to qualitative research.

Company Profile

Founded in 1898 by Pietro Domenis in Cividale del Friuli, DOMENIS1898 has developed over one hundred and twentyfive years of wisdom and craftsmanship transmitted in the unquestionable quality of its products: modern spirits in taste and style, which keep intact all the values that have always distinguished this historic brand.

Tradition and innovation blend together to satisfy the most demanding palates creating the excellence of Italian grappas: products such as Storica®, Secolo, DOMENIS® Gold Edition, Special Edition Picolit and Futura. For the 120th anniversary of the company’s birth, LA120 was launched and immediately awarded as well as I III Re, valuable aged barrique grappas crowned indisputable “Sovereigns” of DOMENIS1898 production. Alongside the best grappas, there are also some gins, including Cividât, the 42° gin that best expresses the particularities of the Cividale del Friuli territory, and liqueurs such as Storica Amaro, Storica Verde and Storica Sambuca, all recognized excellences.

TRITTICO, the line made up of premium products dedicated to mixology, is also born from the over a hundred years of experience of DOMENIS1898. The balance of the elements for the perfection of taste made it possible to obtain Bergamot, an

intense and fruity liqueur with a fresh and pleasant aroma, and Queen Mary, the bitter obtained from the extract of selected Cannabis sativa seeds, but also DOMAZ, the alcohol-free bitter, and the latest arrivals, Vermouth Ros, Blanc, and Rosé, already loved by bartenders. Quality and awareness of the respect for environment are revealed by BIO references and by VEGAN, the line of vegan and organic products certified by Vegan Society and CCPB.

Finally, Storica®, also available in Barrique Millesimata version, is celebrated by the talent of Romina Dorigo in a set of six bottles, signed and numbered, in a limited edition, to be collected: the exclusive Enoteca Collection is on sale in the best wine shops and on the [Company eShop](#).
