scritto da Redazione Wine Meridian | 26 Luglio 2021

Italy is a multi-faceted country, the beauty of its culture, art, history, landscapes and food make the Italian peninsula a place where all these features intertwine harmoniously.

And all these characteristics are linked by a single thread: wine, capable of creating authentic and harmonious relationships and experiences.

This is why we at **Wine Meridian**, we have decided to embark on **a journey around Italy**, with the aim of giving voice to and **promoting all those wineries** that, alongside wine production, have decided to implement **Hospitaluty services aimed at welcoming tourists** and sharing with them the art of Italian good living.

A 7000km long campervan trip is taking us to see the hidden treasures of the Italy of wine, with the desire to live authentic and one of a kind wine experiences that only Italy

can offer.
