Vigna Dogarina’s Pinot Grigio Venezia DOC

scritto da Redazione Wine Meridian | 9 Giugno 2023

Vigna Dogarina encloses a soul closely linked to the territory, demonstrating continuous research and care of the products belonging to this brand. The great agronomic choice, linked to excellent management in the cellar, is one of the results obtained with this Pinot Grigio, emblem of the correct harmonious balance of the grape.

It has an inviting yellow color both for the bright reflections and for the well-defined greenish nuances. On the nose it is broad and with precise hints of William pear and fresh tropical fruit, light aromatic notes that make it inviting: a Pinot Grigio that is very reminiscent of the spring breeze. It is on the palate that this amplitude on the nose is completed by the well-defined mineral notes, with a full and rightly savory gustatory length.

It is a Pinot Grigio which, in addition to being easy to drink, gives harmony and balance to the palate, becoming the protagonist from the aperitif to pasta dishes with white fish sauce.

Vigna Dogarina once again offers a product with a strong identity and in line with the philosophy that has distinguished this important Venetian winery for many years.

Company Profile

Vigna Dogarina – Gruppo Vi.V.O. Cantine is a wine-producing company dedicated to quality wines, where the utmost attention to every single detail, from managing the work in the vineyard right up to bottling, enables to achieve excellent standards.

A solid wine-making experience, combined with the use of the most modern technologies, allows Vigna Dogarina – Gruppo Vi.V.O. Cantine to produce modern and elegant wines; wines which are the maximum expression of its territory, in an area that is rich in history with important cities such as Venice and Treviso.

Thanks to its photovoltaic system, the company is able to cover its entire energy needs, minimizing emissions while fully respecting the environment.
